

Humanitarian building brochure

Easy Housing – November 2022

Humanity faces unprecedented levels of displacement. Easy Housing provides a unique solution for sustainable buildings in humanitarian settings. A home for everyone. Sustainable. Social. Scalable.

Easy Housing offers these concepts for resilient communities:

Family homes.

Special needs homes.

Staff homes.

Classrooms.

Health centres.

Offices.

Training centres.

**Starting from USD 200 per sqm.
Rental options from USD 150 per month.
Two bedroom home from USD 5600.**

* actual prices depend on project scale and location.

Sustainable.

Circular.
Zero carbon.
Climate resilient.
Biobased.
Local sourcing.

Social.

Healthy homes.
Happy families.
Local jobs.
Cultural integration.
Affordable.

Scalable.

Prefabrication.
Fast construction.
Building partnerships.
Engineered quality.
Digitalisation.

We work for:

- NGOs.**
- UN agencies.**
- Governments.**
- Private sector.**

Background information

Experience in humanitarian settings.

Zero carbon and circular economy.

Positive impact on 16 SDGs.

Climate resilient designs.

Local building partners.

Sustainable forestry partners.

Scalable and fast prefabrication.

Durable engineered quality.

Local jobs and skills development.

Involving refugee and host communities.

Relocation and incremental building.

Long lifespan with treated timber.

Solar systems and rainwater harvesting.

impact report

In August 2022 we completed our first humanitarian project. The homes are located in West Nile, Uganda. The design was made in direct collaboration with local NGOs and stakeholders. The refugee and host families were engaged in co creation meetings. Construction was done by local carpenters.

This resulted in the following impact:

20 people got a job.

6 carpenters got skills training.

4 staff members housed.

11 tons of CO2 avoided.

500 kg of plastic recycled for foundation.

7 partnerships established.

2000 sqm of sustainable forestry support.

1000L rainwater harvesting system.

80Wp solar home system installed.

We can build in most countries. We are currently active in:

Uganda.

Mozambique.

Kenya.

Tanzania.

Ghana.

We collaborate with:

- Global Centre On Adaptation.**
- Climate KIC (EU).**
- Netherlands Enterprise Agency.**
- Climate Smart Forest Economy Program.**
- Good Energies Foundation.**
- Built By Nature.**
- Engineers Without Borders.**
- Green Resources.**
- Green Home Transformations.**
- Levasflor.**
- Fairventures Worldwide.**

Climate-KIC

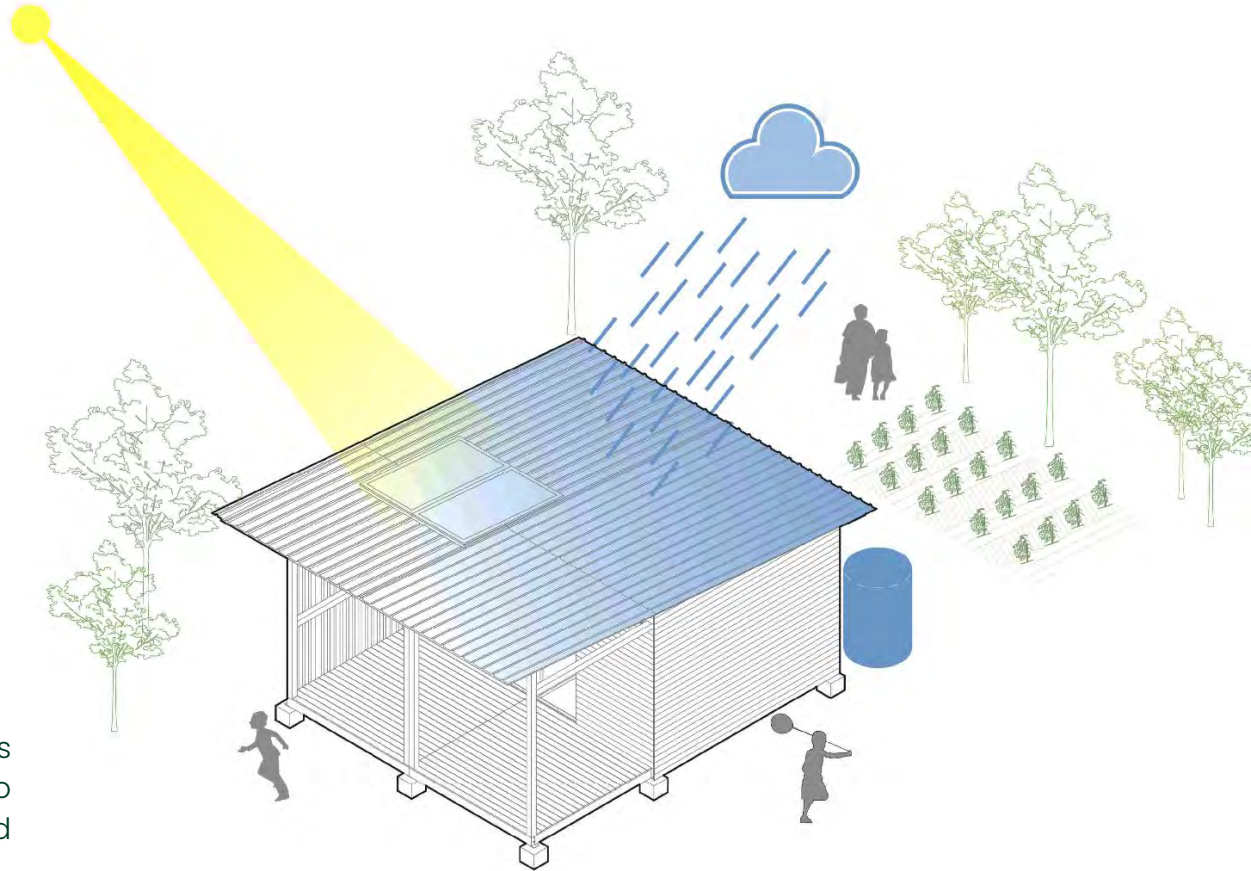

GLOBAL
CENTER ON
ADAPTATION

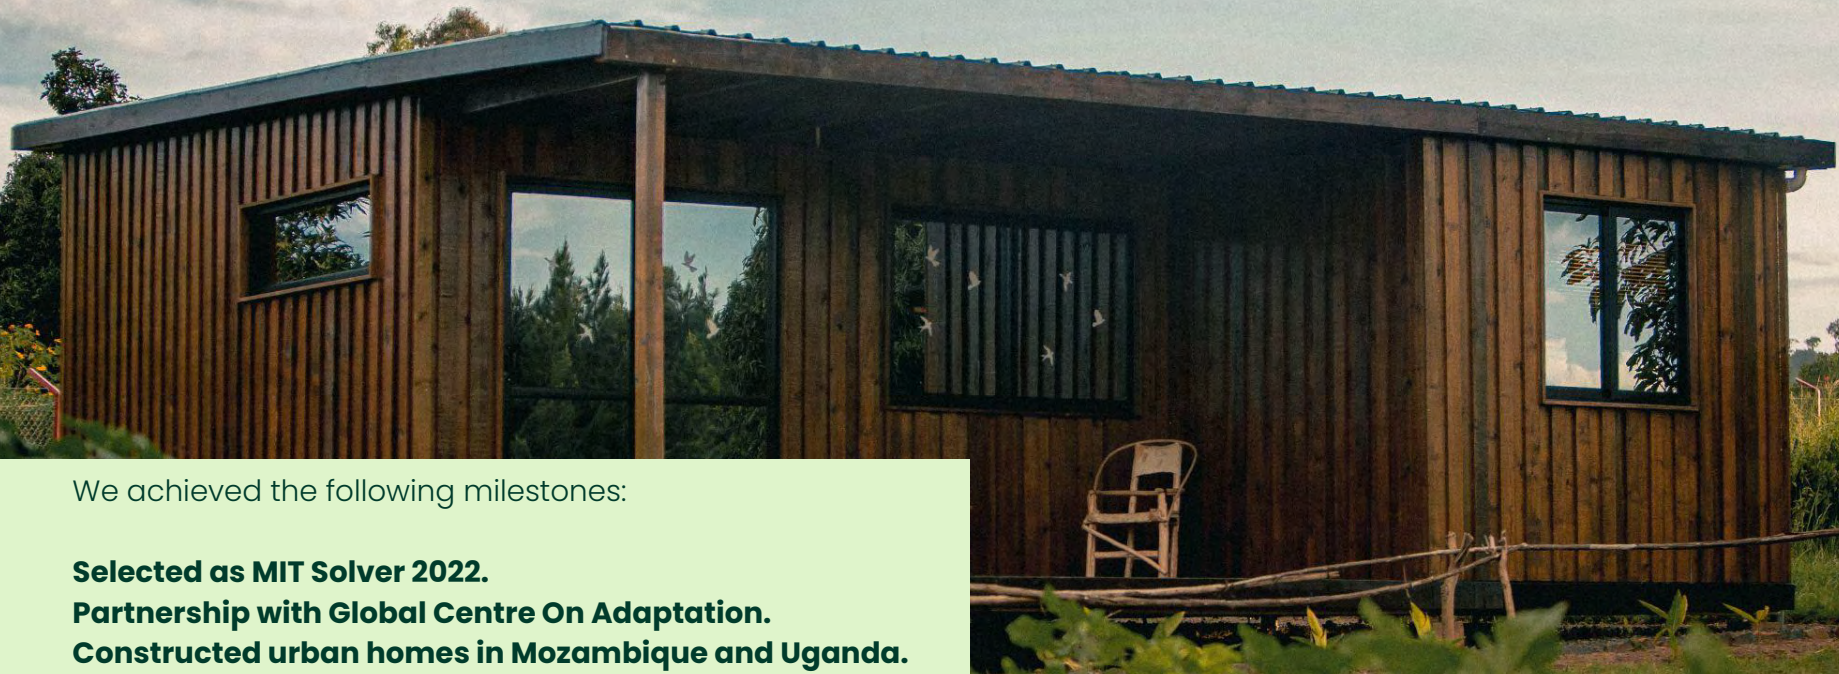

energy and water

We can integrate solar home systems and rainwater harvesting tanks to provide access to sustainable and resilient energy and water sources.

We achieved the following milestones:

Selected as MIT Solver 2022.

Partnership with Global Centre On Adaptation.

Constructed urban homes in Mozambique and Uganda.

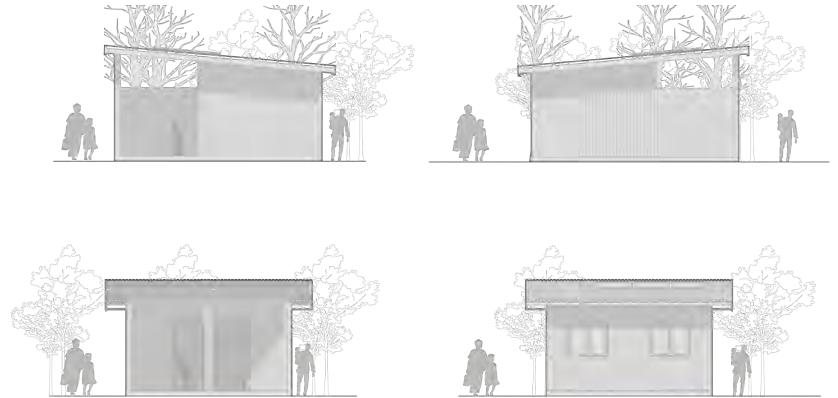

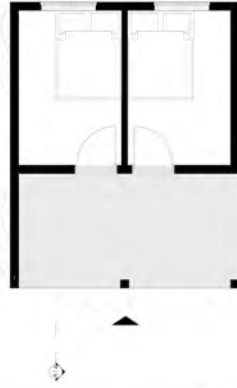

Participant in Climate KIC EU accelerator.

Funded by the Netherlands Enterprise Agency.

Constructed humanitarian homes in West Nile, Uganda.

Our concept is suitable for a wide range of applications. Our architects can tailor a design to meet your project needs.

Easy Homes have a long lifespan and engineered quality. Timber homes can easily last **over 100 years** when properly maintained.

Termite resistant.

We use treated timber which is permanently termite and insect resistant.

Hurricane proof.

Easy Homes are engineered to withstand hurricanes up to category 4..

Flood resilient.

The elevated ground floor makes our homes resilient to floods.

Fire safe.

Our walls have fire safe cladding. Timber structures are hard to set on fire.

Healthy and comfortable.

Wooden homes have a positive impact on air quality and living comfort.
